TITLE : SHEET BRUSH FOR HAIR

ABSTRACT : PROBLEM TO BE SOLVED: To provide a sheet brush for the hair capable of improving convenience as a brush for trimming or caring for the hair through facilitating combing the hair with the help of projections thereon.

SOLUTION: This sheet brush 10 for the hair is such one that one side of a substrate sheet 11 is provided with the plurality of projections 12. Each of the projections 12 has an S-shaped flat cross section, conically projecting with the sectional area reduced upward, and the projections 12 are distributed on the one side of the substrate sheet 11 with the longitudinal directions X of the respective S-shaped cross sections parallel to each other. The substrate sheet 11 is made of nonwoven fabric, the projections being provided by projecting part of the substrate sheet 11. This sheet brush 10 is to be used after being impregnated with any of various hair cosmetics including a deodorant base, deodorizing base, water-absorbing base, antimicrobial agent and ultraviolet light absorber.
